

GEORGIA BIOMEDICAL INSTRUMENTATION SOCIETY

A Society for Georgia BMET's and others involved in healthcare technology

Dedicated to advancing the knowledge of personnel involved in the development, selection, operation, repair and support of biomedical instrumentation in healthcare institutions throughout the State of Georgia.

2014 GBIS Technical Conference & Equipment Workshop

Same Great Team Brand New Players

When: Friday, August 15th 7:30 a.m.-6:00 p.m. & Saturday, August 16th 7:30 a.m.-4:00 p.m.

Where: Southern Regional Emory Healthcare Network

The event will offer educational, networking and personal development opportunities to help expand your expertise, increase your department productivity and much more. Vendors will be demonstrating the latest in medical equipment technology and will be available to answer any and all questions. There will be door prizes, "BMET of the Year" and "Vendor of the Year" presentations, and Vendor Appreciation/ Lifetime Member Hour at the Comfort Suites Atlanta Airport. Funds from this event will be used for parking fees, luncheon, charities and operating expenses.

Event Fees:

Hospital Employees: Free

Participants: \$ 10.00

2014 Corporate Members: \$ 625.00

Exhibitors: \$ 750.00 (includes membership)

Motivational Guest Speaker: Maysam Ghovanloo, Ph.D. Faculty of Electrical Engineering Georgia Tech

Director GT-Bionics Lab
Associate Professor, School of Electrical and Computer Eng.
Associate Editor IEEE Trans. Biomed Engineering
Associate Editor IEEE Trans. Biomed Circuits & Systems
Adjunct Professor, Wallace H. Coulter School of Biomedical Engineering
Program Faculty, Multidisciplinary Bioengineering Graduate Program
Faculty Member, Georgia Electronic Design Center (GEDC)
Faculty Member, Graphics, Visualization, and Usability (GVU) Center

Hotel Reservations:

Comfort Suites Atlanta Airport,
5087 Clark Howell Hwy, Atlanta, GA 30349
Call: 404-209-7299 or Visit: <http://www.comfortsuites.com>
(Use group code GBIS for discount) Deadline August 1, 2014.
Discount Rates: \$79.00 per night.

2014 GBIS Technical Conference & Equipment Workshop

Pre-Schedule of Event

Friday, August 15, 2014

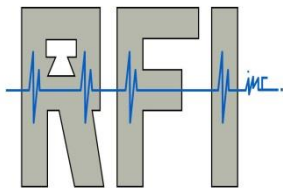

7:30am-4:00pm	Equipment Workshop for Nursing and Medical Staff
9:00am-4:00pm	Covidien ESU Force Triad Certification - Dale R. Munson, Service Manager Covidien This class will teach attendees to install, setup, operate, calibrate and troubleshoot the Force Triad energy platform. Hands-on demonstrations and testing will be granted before certification is granted.
4:00pm-6:00pm	Registration/Vendor Setup
4:00pm-6:00pm	Class Session I
Class Room A	CBET Certification Review - Dr. Mike O'Rear, Biomedical Education Services This review course will cover all sections of the CBET certification test. An update from the USCC will be presented and the AAMI CD will be used and practical exams will be covered.
7:30pm-9:30pm	Vendor/ Life Time Members Appreciation Hours at the Comfort Suites Atlanta Airport All participants are invited to meet and network with members of the healthcare community.

Saturday, August 16, 2014

7:30am-8:30am	Registration/ Coffee/ Snacks
8:30am-9:00am	Welcoming Announcements
9:00am-11:00am	Class Session II
Class Room 1	Covidien ESU Force Triad Certification Continues
Class Room E	AAMI/ GBIS Update - Horace Hunter, GBIS A group discussion on what AAMI/ GBIS is doing to promote HTM and feedback from attendees to use for future plans. . Radiation Safety Certification - Ava Bixler, BC Technical This class covers the different types and production of radiation to grant certification.
Class Room C	CMMS Interface – Past Present Future - Gus Sakis, MediMizer This class will focus on the evolution of linking CMMS to other apps like test equipment, bar coding, RTLS, etc. And what may come in the future.
Class Room B	Anatomy and Physiology - Dr. James Fister, Chattahoochee Technical College This class will focus on a review of the Anatomy and Physiology section of the CBET exam.
Class Room A	Networking Information Systems - Glen Stone, Central Georgia Technical College Topics covered include but not limited to networking protocols, network design and implementation, wireless networking, troubleshooting, support and security. Allocating & managing IP addresses of the embedded systems within modern equipment.
Class Room F	CT Best Practices - John Messingner, Cindy Friesen, Dunlee This class will cover the basic operation and maintenance requirements to perform in-house CT services along with other service options.
11:00am-11:30am	Guest Speaker/ Georgia BMET of the Year/ Vendor of the Year
11:30am-1:30pm	Luncheon/ Exhibit hall opens/ Door Prizes
1:30pm-4:00pm	Class Session III
Class Room 1	Covidien ESU Force Triad Certification Continues
Class Room C	Anesthesia Machines Service - Melba Lawrence, GE Medical Systems This class will cover the theory of operations and troubleshooting technics for in-house biomed to use to reduce maintenance costs for the hospital.
Class Room A	Med Gas Systems-applications per NFPA - Scott Woodall, CE Tech Course will cover alarms, 6040-ASSE certification, vacuum flow and pressures, medical air dew point / CO and more. Modern Technology for EEG Service Training Mike Cameron, Children's Healthcare of Atlanta Course will cover the basic EEG operations and service in providing lead placement, waveforms, troubleshooting and other aspects to conducting an excellent EEG outcome. DNA Testing & Equipment Used - Dr. Jackson, Children's Healthcare of Atlanta This course will cover DNA extracting procedures and how important it is to maintain the equipment used.
Class Room B	How to transfer from a 2 year to a 4 year Engineering Program - Hecmarys Tirado and Marcus Green This class covers: Credit transfer, deadlines, tuition differences, helpful hints websites, forms and paperwork
Class Room E	Clinical Aspects of Ultrasound System Diagnostics - Beborah Rosech, Philips Medical Systems Leverage new tools and ideas to become more efficient in the troubleshooting process. This course is geared towards the Philips iU22/iE33 and GE Logig/ Vivid E9.
Class Room F	Project Management - Greg Goll, Erlanger Medical Center This class covers the basic needs and requirements for managing multiple projects.

2014 GBIS Early Bird Sponsors

Sponsors of this event have proven their dedication to serving the state of Georgia by going above and beyond the call of a sell or service agreement. We want to note a special thank you to the sponsors that registered early. All vendors will be pictured on our website at a later date. A special Vendor/ Life Time Members appreciation hours will be hosted at the Comfort Suites Atlanta Airport to meet and greet - refreshments will be served.

Same Great Team Brand New Players

All participants are asked to wear your favorite team shirt and the team with the most players may win a door prize. This event is designed to have fun and learn and learn and have more fun. So, let's show our peers how much we enjoy our job by attending this event to further our knowledge in the healthcare technology management field.
